How to become an auto mechanic in Illinois

What auto mechanics do, the skills and credentials that matter in Illinois, and how to find auto mechanic jobs.

Sources verified 2026-11-21 - Updated 2026-11-21

1 What auto mechanics do

Mechanics inspect, diagnose and repair cars and light trucks: brakes, suspension, engines, electrical systems and computer diagnostics.

2 Skills and training

Many mechanics start through a vocational program or an entry-level job. Voluntary ASE certifications help with advancement. Servicing vehicle air conditioning for pay needs EPA Section 609 certification.

3 Licensing

We found no Illinois license for individual mechanics. Paid A/C work needs EPA Section 609 certification.
