Requirements at a glance

Sales tax on repair labor and parts

Required - State - Wyoming Department of Revenue

Wyoming taxes services to repair, alter or improve tangible personal property, including vehicles (W.S. 39-15-105). A 2025 bill to repeal this tax died in committee, so collect sales tax on repair labor as well as parts.

EPA Section 609 certification for air conditioning work

Required in some cases - Federal - U.S. Environmental Protection Agency

Required to repair or service motor vehicle air conditioning systems for payment or bartering. We found no Wyoming State license for mobile mechanics.
